AMAN HUSSAIN KHAN

A result-oriented and self-motivated B.Tech graduate. In with a mission to turn innovative ideas into powerful and scalable web applications. Looking for a challenging career where I can implement my Web Development Knowledge so that further enhances my skills and contributes in making a product or a service perfect.

EDUCATION

Shri Shankaracharya Technical Campus, Bhilai — *B.tech (Information Technology)*

Passed out in 2019.

Delhi Public School, Balco — Class 12th.

Passed out in 2014.

Kendriya Vidhyalaya, Balco — Class 10th.

Passed out in 2012.

PROJECTS

ChatGPT using OpenAI API —

Developed a ChatGPT clone using React, integrating the OpenAI API for advanced natural language processing. Implemented a responsive and interactive chat-based interface, showcasing proficiency in React and leveraging state-of-the-art language models for dynamic conversational interactions.

Full-Stack Job Application Platform—

Developed a comprehensive job application app, similar to Naukri and Indeed, with robust features for job posting and application. Utilized React for the dynamic frontend, and implemented a backend using Node.js, Express, and MongoDB for efficient data storage.

Restaurant Seat Reservation Website—

Built a full-stack restaurant application that facilitates seat reservations. Utilized React for the frontend to deliver a seamless user experience. The backend was powered by Node.js and Express, leveraging MongoDB for efficient data storage.

Portfolio Website Using React JS—

Built a completely responsive Portfolio Website using React JS , JavaScript, HTML, CSS, MongoDB. The website contain links to my other projects and also has form which connected to the database.
